Teams will present their innovative, creative, and original solutions that come together to develop a community that balances transportation and equity.

STEM Outreach Workshop
The STEM workshop will train attendees on a step-by-step outreach process and demonstrate several STEM activities to give participants first-hand experience and build their confidence in their STEM outreach efforts.

Women in ITE Bootcamp
Flex your gender inclusion muscles! Join our efforts as we learn about each other, including what we have in common, and our differences, to prove how varying perspectives are valuable. The workshop includes breakout sessions where attendees can rotate throughout discussion areas to explore the lessons learned from each of the quarterly virtual information series sessions that were held this past year.
